SUMMARY

Full-stack developer with **1+ year** of professional experience building production web applications, ERP modules, internal tools, and workflow automation. Experienced with React.js, Next.js, Node.js, Express.js, Django, Flask, PostgreSQL, and MongoDB, with hands-on experience across frontend, backend, APIs, databases, and deployment.

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, Python, HTML, CSS
- **Frontend:** React.js, Next.js, Tailwind CSS
- **Backend:** Node.js, Express.js, Django, Flask, REST APIs
- **Databases:** PostgreSQL, MongoDB, Mongoose
- **Tools:** Git, GitHub, Linux, Postman

WORK EXPERIENCE

Shubham Tanks and Liners | Full Stack Developer (Full Time) Jan 2026 - Present

- Develop and maintain the company's **ERP system**, primarily contributing to the **Sales & Marketing module** across the end-to-end **Lead-to-PO** business workflow.
- Build production features using **React.js, Django & PostgreSQL**, including **4+ business dashboards**, dynamic forms, and workflow-driven screens used by internal teams.
- Built a **Daily Sales Activity Form & Dashboard** used by **9+ sales team members** to track performance and improve visibility into sales activities.
- Design reusable components, API integrations, and backend services; independently handle debugging, testing, and database-related tasks.
- Contribute to **30+ features and enhancements**, collaborating with business stakeholders to translate requirements into production-ready software.

Shubham Tanks and Liners | Full Stack Developer Intern Jul 2025 - Jan 2026

- Built **3+ internal web applications** from scratch with React, Tailwind CSS, Node.js & MongoDB, including admin panels and dashboards.
- Automated routine workflows across **email, Google Sheets**, and other manual processes, reducing repetitive work and improving data handling for business teams.

PROJECTS

ZyCart - An AI-Powered E-Commerce Application [Live Link](#) / [Source Code](#)

Tech Stack: Next.js, TypeScript, Node.js, Express.js, MongoDB, Mongoose, Tailwind CSS, Zustand, Razorpay

- Built a full-stack store with cart, wishlist, order tracking, and **2 payment modes** (Razorpay & Cash on Delivery).
- Implemented item-level returns with **partial refunds**, and managed client-side cart & wishlist state with Zustand.
- Verified Razorpay signatures & webhooks; kept stock accurate with **MongoDB transactions** and an inventory log.
- Developed **ZyCart AI**, a shopping assistant with **5 server-side tools** and a switchable provider across **3 AI models** (Claude, Gemini, Hugging Face).
- Created an admin console for products, orders, inventory, returns & reviews.
- Secured with JWT (HTTP-only cookies), Zod validation and rate limiting; covered by **14 backend test suites**.

CMS Generator - An AI-Powered Content & Image Platform [Live Link](#) / [Source Code](#)

Tech Stack: React.js, Vite, Node.js, Express.js, MongoDB, Redis, Gemini API, Hugging Face, Cloudinary, Tailwind CSS

- Built an AI-powered CMS with **5 content actions** (rewrite, expand, shorten, article and SEO metadata).
- Designed a single config-based API route, so adding a new AI tool needs just **1 config entry**.
- Integrated **Google Gemini 2.5 Flash** for text and **Hugging Face FLUX.1-schnell** for images, stored on **Cloudinary** and cached in **Redis** so repeated prompts return instantly.
- Implemented JWT auth with bcrypt, rate limiting, versioned **/api/v1 REST APIs**, and a per-user searchable history of generated content.
- Built a React 19 + Vite SPA with lazy-loaded protected routes; deployed on **Vercel** with a MongoDB connection cached across serverless calls.

CERTIFICATIONS

Full Stack Web Development Bootcamp (Udemy) — 2024 | [Certificate](#)

Tools of the Trade: Linux and SQL (Google, via Coursera) — 2025 | [Certificate](#)

EDUCATION

Bachelor of Commerce

- Mumbai University

2021 - 2024

MERN Full Stack Development

- Accio Job

2024 - 2025
